Jibe Consulting Ranks 23rd on *Portland Business Journal's* Fastest Growing Private 100 Companies List For 2008.

Portland, Oregon
Friday, June 20, 2008

Jibe Consulting Inc., ranks 23rd on the *Portland Business Journal's* 2008 list of fastest growing 100 privately held companies. Jibe's 147% jump in revenues between 2005 and 2007 led the company to rank 23rd in the top 100.

Jibe Consulting, Inc. is a leading Pacific Northwest management and technology consulting company committed to guiding clients from business analysis and strategy planning through the deployment of Oracle's family of business applications.

Shane Moncrieff, Jibe's president and CEO, attributes Jibe's continued growth to Jibe's people oriented culture. "This accomplishment is a direct result of the efforts put forward by individuals who consistently strive to exceed client expectations. Maintaining this level of growth over several years is evidence that our dedicated and highly experienced team of consultants are critical to the success of our company and further growth," said Moncrieff.

Portland Business Journal Fastest Growing Private 100 is an annually generated list of privately held companies whose growth represents the best in the region. In order to be considered for the list, a company must have been in business for a minimum of three years and have 2007 revenues of at least \$500,000.

About Jibe Consulting, Inc.

Jibe is a Pacific Northwest-based management and technology consulting firm. Our focus is on helping clients quickly achieve measurable returns on their investments in Oracle technology.

We offer our clients full service management consulting, going far beyond standard technology consultants. Everything we do is designed to help our clients generate more revenue, increase cost-effectiveness, manage regulatory compliance, integrate information and transition to "next-generation" technology. With over 200 Oracle projects completed, Jibe's repeatable solutions and deep industry expertise enables our team to truly connect with customers to provide the solutions they need, when they need them.
